

International Global thresholds

Overview of de minimis value regimes open to express shipments worldwide

De minimis refers to the minimum value of the goods when no duties and taxes are being collected by Customs (see also Transitional Standard 4.13 of the WCO Revised Kyoto Convention). Certain countries have a separate threshold (see below) where simplified declarations are accepted as evidence of freight value, e.g. in form of the transport manifest or other suitable form.

Country	De minimis value "no duty/tax collection"	
	in national currency	in USD*
