

Freight Profile Specifications

The Freight Profile Specifications table below explains the freight profile carried via the Aramex network. If your freight falls outside of these specifications, some additional charges may apply.

	DETAIL	✓ PREFERRED	✓ ACCEPTED	✗ NOT ACCEPTED
PARCEL SIZE	Length	< 1.2m	< 2m	> 2m
	Dead weight	< 15kg	< 25kg	> 25kg
	Cubic volume	< 0.1m ³ or < 25kg	< 0.16m ³ or < 40kg	> 0.16m ³ or > 40kg
	Dimensions (length, height or width)	All dimensions < 1.05m	One dimension > 1.05m	Two or more dimensions > 1.05m

Aramex is only able to accept freight, such as parcels/satchels, that are sufficiently packaged to ensure that:

- Freight handlers are not at risk of injury
- The parcel is likely to hold the contents
- The parcel and its contents are not likely to damage other freight articles or Aramex equipment and vehicles
- They withstand temperature variations, handling and transportation during freight carriage
- They comply with our Freight Profile Specifications

	DETAIL	✓ PREFERRED	✓ ACCEPTED	✗ NOT ACCEPTED
